# Client Questionnaire

The questions below are meant to provoke thought regarding the use and ultimate vision you have for your property. Landscape improvements are a great investment for your property, and answers to these questions will help us create a well-suited, custom landscape design. Please take the time to accurately complete this questionnaire.

## General

1. What areas of your property would you like to modify or improve?

---

2. Do you have a budget in mind? If you're not sure, we can provide you with a realistic budget range once we understand your goals.

---

3. Do you anticipate completing your new landscape at once or in phases?

---

4. Are there any problem areas on your property (i.e. poor drainage) that need to be addressed?

---

5. Will you be maintaining your landscape or will you be in need of a maintenance service?

---

## Plantings & Lawn

1. Do you have any favorite trees, shrubs, perennials (grow back each year), or annuals (plant yearly) you would like us to incorporate? Any favorite colors?

---

2. Likewise, are there any specific plants or colors you would prefer not to have in your landscape?

---

3. Would you like extensive lawn areas or smaller lawn areas or not at all (i.e. for children and pets)?

---

4. Are there any views of neighboring properties you would like to enhance or screen?

---

5. Do you currently have any issues with wildlife or pests (i.e. deer browsing)?

---

6. Would you prefer to install larger, more mature plants or smaller plants that will grow over time?

---

## Hardscapes

1. What types of hardscapes are you wanting incorporated into your new landscape (i.e. patios, sidewalks, retaining walls, seat walls, terraces)?

---

2. Do you have a preference for the materials used for each hardscape feature (i.e. brick pavers, natural stone)?

---

3. If you plan on entertaining, how many guests would you like to be able to accommodate? This will help determine, for example, the size of a back yard patio you will need.

---

## Design Style

Please tell us what design style you prefer:

- Free Form/ Curvilinear
- Native/ Rustic
- Formal/ Rectilinear
- Free Form/ Formal Mix
- Other \_\_\_\_\_

## Additional Information

Any further insight you can provide will surely assist us in developing your landscape design. For instance, you may have pictures from magazines saved or a web page containing either your ideal landscape or certain aspects or features you would like to have present on your property.
